Council project planning/administrative work session:

Gary reported that the Stream Maintenance Plan was presented to the Town Board at the April 26 meeting but not adopted. The Board Members wanted time to read the plan. He hoped it would be adopted at the meeting May 24.

Discussion took place regarding using town equipment on private property. Rick questioned why work couldn't be done if property owner has no problem with equipment being used. He was reminded that town equipment cannot be used on private property. He pointed out that fire departments responding to fire/ems calls use equipment funded by town taxes with no problems.

Dale Bushart, Tuckahoe Road, has maintained the ditch behind his house on his own. Debris has been thrown in that ditch, causing water to back up onto his property. Discussion took place on the need to do continued maintenance.

Rick Vos made a motion to adjourn the meeting at 7:55pm.

Respectfully Submitted,
