Councilman Orbaker presented the following Resolution and moved its adoption. It was seconded by Councilman Verno.

WHEREAS: The International Joint Commission (IJC) has announced consideration of a new plan that will replace the current regulation plan (58DD) that controls water levels of Lake Ontario and the stated purpose of the new plan, known as PLAN2014 is to reverse environmental damage caused by the current regulation plan (58D), particularly with regard to the restoration of 65,000 acres of shoreline meadow marsh; and

WHEREAS: PLAN2014 will increase the current range of water levels that private and public riparian property owners relied on for the last 50 years and according to a peer review conducted by the National Academy of Sciences, the potential environmental benefits of the PLAN2014 are based upon speculative and unreliable research; and

WHEREAS: Projected lake levels under the proposed plan will result in increased duration and frequency of high and low water, significantly increasing the potential for damages to Lake Ontario riparians (estimated at over \$2.2 million per year, which is likely an underestimate) and negatively impacting sport fishing and recreational boating economics across the entire region (estimated at over \$94 million per year); and

WHEREAS: PLAN2014 greatly decreases protections that exist in the current plan, replacing them with a plan that results in the transfer of prosperity from Town of Williamson and other Lake Ontario communities to Hydropower (NYPA and others) who will realize a benefit of approximately \$5.3 million per year on average, and

WHEREAS: Town of Williamson residents who own property or businesses along the Lake Ontario shore, including its bays, tributaries and ponds, have voiced their concern about a proposed change in the lake levels that would result in significant damage to their properties, and a corresponding decrease in revenues from recreational boaters and fishermen, both locally-based and those traveling internationally; and

WHEREAS: Town of Williamson residents and elected officials are resolute in protecting the waters, streams, and harbors of Lake Ontario, the home for some of the best sport fishing, pleasure sailing and power-boating in the world; and

WHEREAS: Modifying the current range of operation by PLAN2014 further hinders boating access and when combined with the protracted absence of federal funding for maintenance dredging of our federal shallow draft harbors, will cause

significant and measurable negative financial impacts to the local and regional economy;

NOW THEREFORE BE IT RESOLVED: The Town Board of the Town of Williamson does herewith respectfully request that the International Joint Commission *reject* in its entirety all current plans for the implementation of the PLAN2014; and be it further

BE IT FURTHER, RESOLVED: That the IJC immediately enact a moratorium on the development of any future proposals to modify the range of water levels on Lake Ontario until the completion of a thorough, objective and all inclusive analysis of the potential economic damages on tourism, recreation, business and residences along the south shore of Lake Ontario (including properties located along harbors, rivers and streams) with a specific section dedicated to the thorough evaluation of damages in Williamson where impacts have been identified as the most acute; and

BE IT FURTHER, RESOLVED: That as part of this study, the Town of Williamson recommends the Commission also assess the amount of civil work and financial assistance required to mitigate the damage of any future plans, and identify funding sources available to offset said actions; and

BE IT FURTHER, RESOLVED: That this study must also evaluate the environmental impacts of repeated flooding of the built environment, to include the identification of the constituents of point and non-point source runoff and the impacts of sediment and nutrient loading on the quality of water in the impacted areas; and

BE IT FURTHER, RESOLVED: That the Town Board of the Town of Williamson respectfully requests a formal response to this resolution by the International Joint Commission at their earliest convenience; and

BE IT FURTHER, RESOLVED: That certified copies of this resolution be forwarded to the International Joint Commission, Governor Andrew M. Cuomo, the New York Department of State, Joe Martens, Commissioner of the New York State Department of Environmental Conservation, the New York State Environmental Facilities Corporation, U.S. Senator Charles E. Schumer, U.S. Senator Kirsten E. Gillibrand, U.S. Congresswoman Louise Slaughter, Congressman Dan Maffei, Senate Environmental Conservation Committee, State Senator Nozzolio, Assemblyman Robert Oaks, and all others deemed necessary and proper.
